PROFILE SUMMARY

Motivated **Computer Science and Engineering** student skilled in **Python, Java, SQL, Web Development, Git, and Machine Learning**. Experienced in developing **AI, IoT, and Full-Stack** projects, with strong **problem-solving, analytical, and team collaboration** skills. Passionate about building impactful software solutions and continuously learning emerging technologies.

TECHNICAL SKILLS

Languages: Python, Java (Basics)

Web: HTML, CSS, JavaScript

Database: SQL, DBMS

Core CS: Data Structures, Object-Oriented Programming (OOP)

DevOps: Git, GitHub, Version Control, CI/CD, Build Automation, SDLC

Tools: Visual Studio Code, Microsoft Word, Microsoft PowerPoint

PROJECTS

DataZen – AI Deepfake Detection Platform | GitHub: [Project Link](#) | [Link Demo](#)

- Developed an **AI-powered Deepfake Detection** web application using **Python** and **Flask**.
- Built **REST APIs** and a **responsive dashboard** for **media analysis** and **real-time detection**.
- **Tech Stack:** Python, Flask, REST API, HTML, CSS, JavaScript

AI-Powered Transparent Diagnostic System | GitHub: [Project Link](#) | [Live Demo](#)

- Developed an AI-powered healthcare platform for **QR-based sample tracking**, **medical report analysis**, and **AI chatbot assistance**.
- Implemented secure authentication, real-time updates, and responsive UI.
- **Tech Stack:** React.js, Node.js, Express.js, PostgreSQL, Socket.io, Google Gemini API, Tailwind CSS.

AI-Based Warehouse Robot Simulation | GitHub: [Project Link](#) | [Live Demo](#)

- Developed a **Warehouse Robot Simulation** with **BFS-based autonomous navigation** and **dynamic obstacle avoidance**.
- Built a **real-time dashboard** for **robot tracking** and **task monitoring**.
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, BFS Algorithm

Human Development Index (HDI) Predictor | GitHub: [Project Link](#) | [Live Demo](#)

- Developed a **Machine Learning** web application to **predict HDI** using **Linear Regression**.
- Built a **Flask-based prediction system** with **data visualization** and **real-time HDI classification**.
- **Tech Stack:** Python, Flask, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, HTML, CSS

EDUCATION

Pursuing Bachelor of Technology | **Swarnandhra College of Engineering and Technology**

- **CGPA:** 7.5 **Sept-2023 – July-2027**
- **Coursework:** Computer Science and Engineering

CERTIFICATIONS

Artificial Intelligence (AI) for Management – NPTEL | **IIT Madras**

- Completed a **12-week NPTEL** course on **Artificial Intelligence, Machine Learning, and Data-Driven Decision-Making**.
- Earned an **Elite Certification** with a **75%** consolidated score.

Foundation for Virtual and Augmented Reality Systems – NPTEL | **IIT Guwahati**

- Completed a **12-week NPTEL** course on **Virtual Reality (VR), Augmented Reality (AR), and 3D Interaction Systems**.
- Earned an **Elite Certification** with a **75%** consolidated score.

ACHIEVEMENTS & LEADERSHIP

- **NSS Secretary:** Organized social service activities and college-level events.
- **Technical Quiz Winner:** Secured 1st prize in Technical Quiz competitions during 2nd and 3rd year technical fests.
- **ATL Mentor:** Guided school students in IoT concepts and technology projects under Atal Tinkering Lab.
- **Best Coordinator:** Recognized for coordinating a Startup Competition conducted by the Entrepreneurship Development Cell
